

## Subro Education at Your Desk – NASP WEBINAR

### ***"Using Infotainment System Data for Vehicle Forensic Investigations"***

**Tuesday, February 13, 2018 – 1 p.m. EST**

The iVe digital tool which has been developed by the Berla Corporation allows to acquire vehicle and user information from a vehicle's infotainment system. Information may include vehicle information such as Vehicle Identification Number (VIN), phone call logs, text messages, vehicle events (doors open/close, lights on/off, gearshift position), speed, braking and acceleration events, all with date and time stamps. Other available data that can be acquired by using the iVe technology include navigation data such as saved and previous destinations, track points along a route and route information. Information on vehicle coverage, data acquisition procedures, data availability, data processing and analysis along with examples will be presented. A case study on the use of the iVe digital tool will be discussed.

**Dr. Lino Garcia** received his Bachelor of Engineering in 1982 from the University of Technology in Havana, Cuba. Dr. Garcia has conducted accident reconstruction and investigations for insurance companies, law firms and private sector. Dr. Garcia's expertise and experience include motor vehicle accident reconstruction, electronic data recorders imaging and interpretation, accident site examination and digital mapping, acquisition, analysis and interpretation of vehicle infotainment system data, vehicle mechanical inspections and failure analysis, analysis of traffic light signal timing relating to intersection collisions and scientific computer simulations. He has reconstructed low-speed and high-speed collisions involving passenger vehicles, light/medium trucks, heavy trucks and farm equipment, vehicle-pedestrian and vehicle-bicycle collisions and rollover accidents. His work has also involved assessment of highway design features, roadway defects and Winter Maintenance Operations relating to collisions. He has testified in both civil and criminal courts in Ontario, Canada. Dr. Garcia has conducted vehicle accident reconstruction and investigations for the insurance companies and law firms.

#### **REGISTRATION FEE:**

**FREE** – Members  
**\$100** – Nonmembers  
**\$60** – Nonmember Group Rate\* (per person –3 or more from same company)

\*Please contact Michelle Givvin to register groups.  
Any questions – contact NASP – 1-800-574-9961

#### **WEBINAR INSTRUCTIONS:**

1. Register and make payment at [subrogation.org](http://subrogation.org). You will then be given a link to WebEx to register.
2. Log-in information will be emailed to you from WebEx; a reminder will be sent **24 hours** prior to webinar.
3. **NOTE: If you do not receive the WebEx link, please check your "junk" email.**

### ***THANK YOU TO OUR INSURANCE CARRIER WEBINAR SPONSORS!***

**Allstate  
CSAA  
Hanover  
Progressive**

**American Family  
Erie  
Liberty Mutual  
Sentry  
Travelers**

**AmTrust  
Geico  
Nationwide
